The University of South Alabama
Department of Biology
Two (2) Assistant Professor positions

The University of South Alabama Biology Department seeks applications for two tenure-track (9 month) Assistant Professor positions starting August 15, 2015. The department offers B.S. and M.S. degree programs. Individuals are expected to develop externally funded research programs, involving both undergraduate and graduate students. The ability to teach one of our core courses in Cell Biology, Genetics, or Ecology and Evolution is an advantage. Candidates must have a Ph.D. Postdoctoral experience is preferred. See http://www.usouthal.edu/biology/facultysearch.html for more information.

Position one is in the area of Developmental Biology. Candidates will also be expected to teach existing courses in developmental biology and develop new curricula in their specialties that target undergraduate and graduate students.

Position two is in the area of Animal Physiology. Candidates will also be expected to teach existing courses in animal physiology and develop new curricula in their specialties that target undergraduate and graduate students.

Send cover letter, vita, statement of teaching philosophy, statement of research goals, transcripts, and three original letters of recommendation to the Developmental Biology or Animal Physiology Search, Biology Dept., Univ. of South Alabama, LSCB 124, 5871 USA Drive N., Mobile, AL 36688. (Official transcripts will be required before on-campus interviews).

Review of applications will begin October 31, 2014 and continue until positions are filled. For full consideration, complete applications must be received before October 31, 2014. The University of South Alabama is an Equal Opportunity Employer - Minorities/Females/Veterans/Disabled.
