

**MEMORANDUM**

TO: Regional Science & Engineering Fair Students chosen for ASEF

FROM: Mary Lou Ewald, Director, Alabama Science & Engineering Fair

DATE: February 23, 2022

SUBJECT: Alabama Science & Engineering Fair (ASEF), April 4 - 8, 2022 (virtual format)

Congratulations! You have been selected to compete in ASEF, the statewide science and engineering fair for Alabama that will take place in **VIRTUAL** format the week of April 4 – 8, 2022. Participation in ASEF is by invitation only, and you should be proud of your accomplishments so far! ASEF is being organized and hosted by the College of Sciences and Mathematics and the Sam Ginn College of Engineering at Auburn University.

Your Regional Fair Director will forward your paperwork on to ASEF through the *Scienteer* system. Students who are invited and plan to participate in ASEF should log back in to *Scienteer* to confirm their participation, select their project category and upload their Virtual Display Board into *Scienteer* no later than Monday, March 14 at 5:00pm. Completion of these steps qualifies as your official registration. You cannot participate in ASEF if you are not registered.

Registration is \$10 per project and should be paid no later than March 25. Credit card payments can be submitted through our payment portal, <https://aub.ie/ASEF-registration>. Visa and MC are the only merchants accepted.

A master schedule of ASEF events will be emailed to the student address on file in *Scienteer* a week prior to the event. If you have any questions, please contact Janie Marino at [jgm0010@auburn.edu](mailto:jgm0010@auburn.edu).

We look forward to hosting you at the Alabama Science & Engineering Fair!

Sincerely,

Mary Lou Ewald  
Director, STEM Outreach Center  
Auburn University
